ENIOLAOLUWA DAYO-OBATEWOSE

Cybersecurity Student & Full-Stack Developer

dayoobatewoseeniolaoluwa@gmail.com | linkedin.com/in/eniolaoluwa-dayo-obatewose

github.com/GreyHound257 | edayoobatewose.vercel.app

EDUCATION

B.Sc. Computer Science

Covenant University, Nigeria

Expected 2027 | 3rd Year

Coursework: Data Structures, Networks, Secure Software

TECHNICAL SKILLS

Languages

Python, TypeScript/JS, SQL, HTML/CSS

Frameworks

Next.js, Flask, TensorFlow, Tailwind

Tools & Platforms

Git/GitHub, Vercel, Telegram API, Docker

Specialties

API Development, Automation, Secure Coding, OCR, CV

CERTIFICATIONS

- ISC2 Cybersecurity (CC), October 2025
- Cisco Cybersecurity, 2024
- Prompt Engineering, June 2024
- Microsoft Office Specialist, April 2024
- Mobile App Dev, September 2020

PROJECTS

Shadow Keeper Bot

Python, NoSQL

- Deployed production Telegram bot for community management
- Built persona engine with prompt engineering
- Real-time NoSQL storage for user states

DocuConvert Engine

Python, Flask, OCR

- Secure backend for PDF operations (merge/split/encrypt)
- OCR integration for scanned document conversion
- RESTful API with secure file handling

Facial Emotion AI

Python, TensorFlow

- Real-time emotion detection from video streams
- Custom model training & Flask API deployment
- Quantifiable accuracy on test datasets

Portfolio Protocol

Next.js 15, TypeScript

- High-performance portfolio with security-themed UI
- Optimized for Core Web Vitals & SEO
- Vercel deployment with CI/CD
